

Joe Mora

Project Manager

Project Responsibilities: Joe will be the project manager. He will be involved in the project from start-to-finish, and will direct and coordinate project schedules, resources, and equipment. As well as maintenance of project documents, plans, and reports. Joe will work closely with the other members of the team to coordinate all aspects of the foodservice equipment requirements and ensure the client's needs are met as the project evolves. Joe brings a balance of sound design practices with an understanding of the operational issues of a project to create spaces that work efficiently.

Personal Stats

35 years in the industry

2 years with S2O Consultants
