Peg Galie, FCSI

Project Manager Peg will be involved in the project from start-to-finish, and will direct and coordinate project schedules, resources, and equipment. As well as maintenance of project documents, plans, and reports. Peg will work closely with the other members of the team to coordinate all aspects of the foodservice equipment requirements and ensure the client's needs are met as the project evolves.

Peg Galie began her career in the foodservice industry at the age of 14 as a dishwasher and continued to work in foodservice as a server, bartender, cook and front-end manager. She has also been involved in residential construction. That changed in 2008 during the great recession when she joined a health care company. During her time in the health care industry, she worked part-time for S2O reviewing plans and specifications. She joined S2O in 2014 and has worked her way up through prior to becoming a project manager with S2O Consultants.

As project manager, Peg has worked on numerous large venue projects including professional and collegiate sports venues, hotels, K-12 schools, health care, corporate dining, and higher education facilities. Peg is an FCSI Professional Member.

Peg resides in the city of McHenry with her dog. She loves to travel and spend time with her grandchildren and family.
