Consultants Society International

FE&S Magazine-Top Achiever
Consultant-2014

Kristin has over 30 years in the Hospitality Industry with an emphasis in practical food service operations. Her facility design experience includes major work on sports venues for professional and college level clients, hospitality, educational and corporate dining facilities. Kristin's designs will allow the maximization of food and beverage sales while maintaining the level of quality and variety of menu needed for today's food service operations.

Project Responsibilities: Kristin will be the project executive. Kristin will be involved in the project, performing the duties needed to lead and/or assist the project manager, program, design and oversee the construction of the food and beverage facilities. She will work closely with the project manager and other members of the team as they facilitate all aspects of the foodservice equipment requirements.
