

Ryan Rongo

Principal in Charge & Vice President of Design

Ryan will serve as Vice President of Design and Project Executive for the project, providing design leadership and strategic oversight throughout all phases. He will guide foodservice concept development, operational flow, and equipment planning, while supporting the Project Manager and team during planning, design, and construction administration. Ryan will work closely with the Project Manager and project team to ensure kitchen layouts, equipment specifications, utility coordination, and back-of-house operations are efficiently integrated and executed.
