

Peg Galie

Project Manager

Personal Stats

30+ years in the hospitality industry

12 years with S2O Consultants

St. Norbert College
DePere, Wisconsin

City of Residence: Chicago

Professional Member Food Service
Consultants Society International

Peg Galie has extensive experience both the foodservice hospitality industry and well as in building construction. The combined experience helps clients achieve both their operational goals as well and project goals. Peg's track record of successful projects speaks volumes about her value as a Project Manager.

Project Responsibilities: Peg will be the Project Manager for the project and will work with clients to identify and define project requirements, scope and objective. She will be hands on planning, executing, monitoring, controlling and complete closure of project.

Peg will oversee the daily management of projects, including foodservice equipment floor and site plans and preparing utility requirement plans while utilizing the latest Auto Cad and Revit software. She is also responsible for coordinating project documentation, equipment specifications and ensuring code and health department compliance.
