

Thomas Fribley

Senior Associate & Project Coordinator/Revit Tech

Project Responsibilities: Thomas will be the project coordinator and Revit tech for the project and will work with the design team to coordinate the food service design.

Thomas will oversee the daily project coordination, including foodservice equipment floor plans and equipment utility requirements. He will also be responsible for producing project documentation and will aid in the creation of equipment specifications and budget estimates.

Personal Stats

6 years in the industry working for S2O Consultants

Foodservice Consultants Society International, Associate Member, 2021

City of Residence: Glendale Heights, IL

With 6 years at S2O Consultants, Thomas has contributed to numerous foodservice projects within the sports and entertainment sector, His work includes a wide range of project types, from concessions and clubs to suites and specialty bar concepts. He is known for producing clear, actionable documentation that supports architects, engineers, and contractors. Thomas also remains involved through the post-design and construction administration phases to help carry the design intent through to final installation.
